EA 926
Output Balancing Unit

PRODUCT INFORMATION

The EA926, quad stereo balancing unit, unbalanced inputs and high quality balanced outputs.

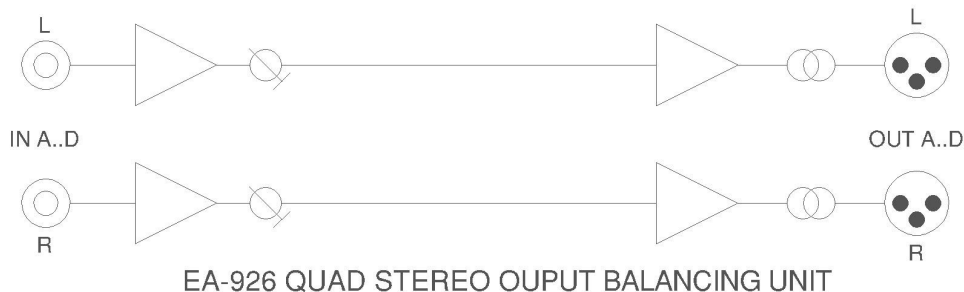

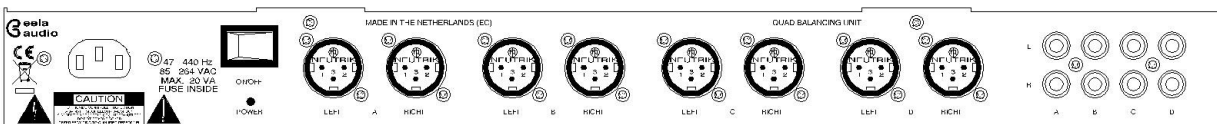

It comes in 2 versions: EA926/E electronically balanced with premium quality amplifiers.

EA926/T transformer balanced outputs used to isolate signals to prevent ground loop problems.

Both units are 19", 1U, 4 x 2 RCA cinch input connectors and 4 x 2 male XLR-type outputs.

Each output is driven by a separate amplifier, the gain for each individual output can be set with trimpots accessible from the rear panel.

With internal jumpers you can couple stereo channels A + B and C + D together to use the unit or part of the unit as a distribution amplifier.

Mains power supply: wide range system 85 .. 260 Volts AC, 47 .. 440 Hz.

Please contact your local EA dealer for more information about Eela Audio products.
